- As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our brief experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

EXPORT SALES REPORT

Comments on January 30, 1975, release:

Wheat: Since last week's report the apparent export commitment (cumulative exports plus outstanding sales) as of January 19 and sales reported under the daily system, since then, have increased by over 800,000 metric tons (MT) not including the cancellation cited below, to a total of 28.1 million MT. This new total apparent export commitment is still about 2 million MT under the USDA export estimate for 1974/75 which was recently changed from a range of 28.6 - 31.3 million MT to the mid-point figure of 29.9 million MT. Sales were recorded under the daily reporting system for current season shipment to India and Brazil while Northern Africa made significant purchases mainly for the 1975/76 season. USDA was also notified of a 600,000 MT sale cancellation to the People's Republic of China (PRC), of which about half was for 1975/76 shipment.

Feed Grains: The apparent export commitment in addition to sales under the daily reporting system registered another sharp increase, over 600,000 MT, since the last report in this series. The increase came mainly from new sales to Western and Eastern Europe and a 50,000 MT purchase recorded under the daily reporting system. During the week ending January 21, the EC issued licenses for an additional one million tons of corn imports (from all third country origins), bringing the total to 7.1 million MT since August 1, 1974. The USDA export estimates for the various feed grains were revised as shown in the summary table on page 2.

Rice: An increase of only 15,000 MT in the apparent export commitment marked another slow week for rice sales. The USDA export estimate was increased during the week as indicated in the summary on page 2. Both the apparent export commitment and the rate of actual shipments remain well below the export estimate.

Soybeans: In the week ending January 19, outstanding export commitments declined by 118,000 MT. The decline in export commitments was particularly sharp in EC destinations, and continued into the 1975/76 marketing year. The annual unadjusted rate of exports moved down to 14.1 million MT.

Soybean Meal: Apparent export commitments decreased by 84,000 MT in the week ending January 19, and the annual unadjusted rate of exports remained at 4.0 million MT.

Soybean Oil: Exports of soybean oil totalled 13,600 MT in the week ending January 19, and the unadjusted annual rate of exports continued upwards reaching 573,000 MT, a seasonal high.

Cotton: Upland cotton exports during the week January 19 were at a 1974/75 weekly high of 124,000 running bales (RB) on the strength of improved shipments to Korea and the People's Republic of China. The apparent export commitment increased 34,000 RB for the year ending July 31, 1975.

SUMMARY - APPROVAL AND DAILY REPORTING SYSTEMS
 (Oct. 7 - Dec. 17, 1974)

The following table updates the data on approvals reported last week and includes information not previously reported on approval requests which were not approved.

Commodity	Export Sales	Approved			Not Approved 2/
		Destination Changes	(1,000 Metric Tons)	Other 1/	
Wheat	4,479	63		1,236	5,910
Corn	3,371	571		440	294

Soybeans	130	110		132	--
Soybean Cake and Meal	50	525		--	--
Total	8,368	1,269		1,973	6,204

1/ Includes approvals which (1) were made under the prospective sale approval system in effect October 7-21 which did not result in firm sales or (2) were cancelled at the exporter's request.

2/ Includes approval requests which were (1) referred for consideration but withdrawn prior to the FAS decision or (2) disapproved in part.

A total of 105 requests for approval have been received, of which 81 were approved, 17 fell through or were cancelled, and 7 were not approved. There may be some duplication in the figures shown in the above table since some sales approvals expired and were subsequently resubmitted.

The above table summarizes slightly more than two months of activity under this system. The data does not include sales under PL 480. Data in the first two columns are reflected in the following tables covering daily and weekly reports. Similar data will be released periodically.

In the past two months, the Department has discussed with officials of many foreign countries their buying plans in advance of actual purchases. In several instances, an understanding was reached to modify these plans so that it was not necessary to question contracts once made. The voluntary approval system encourages such discussions of intent and lessens U.S. Government interference with actual export trade.

A N N O U N C E M E N T

On November 21, 1974, the Foreign Agricultural Service announced plans to shorten its weekly release of U.S. Export Sales and to furnish additional data on accumulated export shipments. After considering public comment and other factors it has been decided to make the following format changes effective with release on February 13, 1975.

1. "Exports During Week" for all classes of wheat, "All Wheat" and "All Upland Cotton" will be changed to "Cumulative Exports" for the current marketing year.
2. "Cumulative Exports" will be shown for all other published commodities.
3. Separate tables for Mixed Wheat, Flaxseed, Cottonseed, American Pima Cotton, staple lengths of Upland Cotton and classes of rice will no longer be published. Any significant activity affecting these commodities will be covered in page 2 and 3 summaries or in the "Comments" portion of future weekly reports. In addition, data on outstanding sales and exports for these commodities may be obtained from the Export Sales Division, Foreign Agricultural Service, USDA, Washington, D. C. 20250, telephone (202) 447-9209.

SUMMARY - APPROVAL AND DAILY REPORTING SYSTEMS

(Dec. 18, 1974 - Jan. 28, 1975)

The following tables summarize activity under the approval and daily reporting systems since the last activity summary which was included in our weekly report of 12/19/74. A total of 18 requests for approval were received during this period, all of which were approved.

On January 24, 1975, the Foreign Agricultural Service released an ERRATA sheet which deleted the second sentence in last week's comments for Feed Grains which reads: "The European Community (EC) accounted for most of the added commitment, which included new sales of 177,000 M.T. of oats to Italy."
